

Name and Date: Jeremy Stark 01/30/2019  
Course and Section: ENGR297 and class # 22749  
Problem: Matlab Homework 4  
Statement: Solving linear equations input by the user

Enter your last name: Stark  
Please enter the following equations in vector or matrix notation  
Enter the first equation: [5 4 -2 6 4]  
Enter the second equation: [3 6 6 4.5 13.5]  
Enter the third equation: [6 12 -2 16 20]  
Enter the fourth equation: [4 -2 2 -4 6]  
Solution:  
x = -0.67  
y = 31.67  
z = -11.33  
w = -23.67  
>>
